* This list includes individuals who are qualified to conduct surveys for federally listed bats, or those who are company contacts, and may not include all individuals qualified to conduct such surveys. Inclusion of names on this list does not constitute endorsement by the WV Division of Natural Resources (WVDNR), the US Fish and Wildlife Service, nor any other government agency. A WV Scientific Collecting Permit will be required from the WVDNR to sample bats in WV. Note that various techniques are used to sample for and study bats, including mist-netting, Anabat detectors, and radio-telemetry. Some individuals on this list may not be qualified to conduct all three techniques.
