Welcome

Chincoteague National Wildlife Refuge was established in 1943 as an inviolate sanctuary for migratory birds. The 14,670-acre refuge vision is – “Chincoteague & Wallops Island National Wildlife Refuges encompass extraordinary and ever-changing lands at the edge of the sea, a place where unique habitats and wildlife flourish. In partnership with others, the refuges are a vital part of a larger system of protected lands and waters on the Delmarva Peninsula, critical to migratory birds. People from around the world can visit the refuges to learn, recreate, refresh themselves, be inspired by wildlife and wild lands, and renew their connection with nature”.

Safety

Areas of the refuge may be closed for management purposes, or other hazardous conditions that pose a threat to human health and safety. Such closures to the Northern Hunt and Archery Only Zones will be posted at the self-check station.

Hunters should use caution on Toms Cove Hook, beach is often inaccessible during high tides. All over sand vehicles must carry a shovel, jack, tow rope or chain or similar support for the jack and a low-pressure tire gauge.
