

it is time to stop the idea of "game" animals that are there to be targets for hunters and trappers. all animals need to be moved nationwide into the category of endangered and considered for protection and preservation. I see no reason why deer, elk, caribou, foxes, otters, coyotes, bear, ducks, geese are considered as live targets and have a target on them to be killed by vicious americans who think its a joy to go out to kill an animal for the day.

this idea from 1860 does not belong in 2022 when we all are aware of the sixth extinction happening in all of america. The massive attack on wildlife by farmers, hunters, corporate profiteers in fur, factory farms, leather fashion coats, certainly makes clear that we are killing far more of gods creatures than can be born. We are also killing trees by the same proliferation of chemical use in our forests on the trees and wildlife, alleged prescribed burning so that no homes are available for birds and animals in the forests, massive use of forest sites by humans so that the animals have no place in PEACE to live anymore.

\
we must change. humans. humans must change. we have a meeting going on in montreal right now on this very extinction issue but apparently the murderous crew at this agency does not bother to know about and certainly does not attend the montreal conference. AND DOES NOT WANT TO UNDERSTAND THE TRUE NATURE OF WHAT IS HAPPENING TO AMERICA AND THE WORLD AT THE PRESENT TIME. CARELESS, THOUGHLESS HUNTERS, TRAPPERS, FISHERMEN ARE A LARGE PART OF THIS ISSUE AND THEY REFUSE TO CHANGE FROM 1860. THEY MUST BE FORCED TO CHANGE.

WILDLIFE HAS RIGHTS. ANIMALS HAVE RIGHTS TO LIVE. THEY HAVE A RIGHT TO LIVE JUST LIKE HUMAN BEINGS. PEOPLE MUST START REGULATING THEMSELVES TO STOP THIS OVERWROUGHT EXTINCTION OF WILDLIFE.

the misuse and lying to the public through your misuse of words like "manage" instead of murder and kill which is what it is and the word "conservation" to hide the extinction of what you do and the word "harvest" as if the hunters and trappers had anything to do with an animal being alive in the forest is so misleading, purposely deceptive and so depraved and disgusting. you misuse the english language so you can fool some of the public in your missives.

this agency in fact needs shutdown and i call for that happening. i call for the cessation of funding by all taxpayers for this murderous agency and i find this agency to be a blot and shameful for america and its citizens. you are all shameful dealing as you do in the murder of innocent animals, who deserve peace in this world. certainly we have people constantly engaged in war but the behavior of animals is better than that. shame shame on all of you getting fat and rich on murder and violence. we all need less of that in america. SHUT DOWN THIS NASTY KILLING AGENCY. STOP MAKING NORMAL COMPASSIONATE TAXPAYERS PAY FOR THIS SHAMEFUL AGENCY

World leaders have 2 weeks to agree on a plan to save nature
