

	Utah. Sage-grouse management zones I, II, III					
Recreation	Range-wide but localized	Tier 2	Low severity, dispersed	Road and Trail Closure		
				Reroute Trail		
Urbanization	Range-wide but localized	Tier 2	Urbanization continues to cause permanent habitat loss, habitat degradation, and fragmentation. Urbanization also results in impacts from associated features (e.g., roads, fencing, powerlines, and increased human activity) and facilitates increases in predators and introduction of exotic annual grasses.		<ul style="list-style-type: none"> • Insufficient political and financial support at the county and/or municipal level • Inconsistent implementation and enforcement of existing measures • Lack of zoning and land use planning regulations 	
Infrastructure	Range-wide but localized	Tier 2	Infrastructure (roads, transmission,	Restoration: Infrastructure Removal and
