White River

National Wildlife Refuge Public Use Regulations 2021-2022

Dale Bumpers White River National Wildlife Refuge

Dale Bumpers White River National Wildlife Refuge, established in 1935, contains approximately 160,000 acres of prime bottomland hardwood habitat located within the floodplain of the lower White River. For management purposes, most of the lands within the refuge have been divided into a North Unit and a South Unit which are separated by Arkansas Highway 1. Refuge out-lying tracts are not depicted in this brochure; however maps are available upon request. These outtracts are open for hunting in accordance with state seasons and bag limits of surrounding zone (except waterfowl hunting ends at noon). All users are permitted on the refuge in accordance with State and Federal regulations as supplemented by the following special refuge regulations.

Required Permits

An Annual Public Use Permit is required to hunt, fish, launch boats and utilize campgrounds on Dale Bumpers White River NWR. Possession of an Annual Public Use Permit (**paper copy or on your phone**) is required and certifies that you understand and will comply with refuge regulations contained in this brochure. To obtain an Annual Public Use Permit, visit <https://whiteriver.recaccess.com/>. Permits are valid August 1 – July 31.

Access and Vehicle Use

The maximum speed for any land vehicle is 25 mph, unless posted otherwise. Refuge roads/trails on the South Unit are opened March 1 through December 15 except the Jacks Bay Hunt Area and Levee Hunt Area will remain open through duck season. All other refuge roads/trails are open year-round. Roads/trails may be closed to land vehicles due to flooding. A locked gate, closed sign, or other barrier (i.e. mounded dirt) means the road is closed to all vehicles but not to foot travel unless signed otherwise. For refuge road and closure information, call the refuge headquarters at 870/282 8200, extension #1. Bicycles and e-bikes are allowed only on open vehicle roads and open ATV/UTV trails.

All licensed vehicles must stay on gravel or paved roads. ATV's or UTV's may only be used on yellow marked trails and are only allowed for hunting and fishing activities. The trails are marked with high visibility yellow paint on trees.

An ATV or UTV is defined as a vehicle with a maximum tire pressure of 15 psi, a maximum dry weight of 1550 lbs., and with tires having a centerline lug depth of 1 inch or less. Only those vehicles originally designed by their manufacturer to be ATVs or UTVs are allowed; mini-trucks or other modified off- road vehicles are prohibited. Personal watercraft (jet-ski, sea-do) are also prohibited. ATVs or UTVs may not be stored on the refuge or left unattended except while actively hunting or fishing near the ATV or UTV.

Jon Boats 16 feet or less (without motors) with the owner's Arkansas Game and Fish Commission license customer ID number displayed or valid registration may be left on the refuge from March 1 to October 31. All boats must be removed from the refuge November 1 through February 28.

Mobility-impaired Users

Individuals with a State issued Mobility Impaired Access Permit may apply for a permit allowing the use of ATV's in accordance with Special Use Permit guidelines. For more information, please call the refuge at 870/282 8200.

Commercial Uses

A refuge Special Use Permit is required for all commercial activities. Commercial guiding for the take of wildlife or fish is prohibited. No person including but not limited to a guide, guide service, outfitter, club or other organization shall provide assistance, services or equipment on the Refuge to any other person for compensation.

Camping

Camping, in conjunction with on-refuge wildlife-dependent activities, is permitted only in designated campgrounds and dates as listed in map legend. Persons camping and/or physical camps may not stay on the Refuge longer than 14 days during any 30 consecutive day period. Camps must be occupied daily. All disturbances, including the use of generators, are prohibited between 10 pm and 4 am. Campfires are permitted only in camping areas and must be attended. Down wood may be gathered for use as firewood at campsites. To prevent the spread of harmful invasive insects, please do not bring firewood from elsewhere. Campers are required to remove all of their trash from the refuge. **In an effort to reduce damage to mowers, please remove rock fire rings upon departure from camp grounds.** Campers must stay within the area blazed with white paint in designated camping areas.

General Hunt Regulations

State bag limits apply for all hunts unless indicated otherwise in this brochure. All other hunting is closed during quota deer hunts.

Feral hogs may be taken by archery hunters from November 1 through December 31.

A hunter born after 1968 must carry a valid Hunter Education Card. Hunters under 16 years old do not need to have a card if they are under the direct supervision (within arms reach) of a holder of a valid hunting license of at least 21 years of age. Youth hunters under the age of 16 who have a valid Hunter Education Card must be supervised by an adult not less than 21 years old and must also remain in sight and normal voice contact with the adult. Flood Zone Closure Regulations

The North Unit closes to deer hunting when the White River gauge at St. Charles reaches 26 feet, as reported by the U.S. Army Corps of Engineers at <http://rivergages.mvr.usace.army.mil/watercontrol/new/layout.cfm>. This restriction is lifted when the gauge falls to or below 23.5 feet.

The South Unit closes to deer hunting when the White River gauge at Graham Burke Outlet reaches 150 feet MSL (30 ft.) and the gauge at Arkansas Post Canal at Lock 1 (Norrell) on the Arkansas River reaches 145 feet MSL simultaneously, as reported by the US Army Corps of Engineers at <http://rivergages.mvr.usace.army.mil/watercontrol/new/layout.cfm>. This restriction is lifted when the White River gauge at Graham Burke Outlet falls to or below 148 feet MSL (28 ft.) and the gauge at the Arkansas Post Canal at Lock 1 (Norrell) on the Arkansas River falls to or below 143 feet MSL.

For safety reasons, quota deer hunts will adhere to a more restrictive flood zone closure that is explained on the actual quota hunt permit cards. SEE INFORMATION ON QUOTA HUNT PERMITS FOR MORE DETAILS.

Check Stations

During the modern gun quota deer hunt, refuge staff will randomly collect biological data. Collection of this information is necessary to inform management decisions.

For all deer and turkey harvested on the refuge, the hunter will immediately (prior to moving the animal) complete the hunting license kill information. All big game taken must be recorded as either South Unit (Zone 145) or North Unit (Zone 146) as zone of kill. Out-lying tracts are the same zone number of the surrounding state zone.

Call 866/305 0808 or visit <https://ar-web.s3licensing.com> to check your deer or turkey within 24 hours of harvest.

If selected, hunters will be required to purchase the annual public use permit. Hunters **will not** be required to pay an additional permit fee if drawn for quota hunts. To apply for quota hunts, visit <https://whiteriver.recaccess.com/>. The quota hunt application period is August 1 – August 31.
