Tasha; FYI, the waiver may not apply to this request, and is a decision the Solicitor's office should determine for us. Bill

Julie; Do you know whether the long term maintenance of all this new Border infrastructure is covered by the waiver? The 2008 border infrastructure maintenance was not covered by the waiver. USACE is using the threat of the waiver to get FWS to provide a long-term access road through SBNWR. Thanks, Bill

Bill / Tasha,

The ask is to identify road access 100% on federal lands for USACOE to identify in their contracts for access to the border. Here is a blown up map showing the area interest. They are focused on what is labeled as San Bernardino Game Refuge Road. But, are the other roads seen in the map access roads to border? Where San Bernardino Game Refuge Road enters private land is where they want to possibly create road to border. Key issues is that roads must be 100% on federal lands.

Steve

Bill / Tasha,

I think they are now saying they need to use existing roads except for a section near Slaughter Ranch what would need to be new road. Is this sounding accurate or do we have access on federal land all the way to the border?

Steve

Shane and Steve; Naturally, this would be very bad to a 2300 acre refuge that is already being threatened by water withdrawal and other issues. Please communicate with Tasha Harden, who is the POC right now for this proposal. I am also still learning, Bill Radke
