Thank you Juliette for the photos. We spoke with Fisher Sand & Gravel yesterday afternoon about the alternate locations. They would like to use the staging area identified near their proposed well. We altered them to the fact that Bill had concerns with getting to close to the refuge pond to the north. Fisher indicated they northern portion of the laydown would be used for their trailer offices whereas all work activities and storage would be on the south end of the area. Would it be possible to have someone place some stakes or flags on the north and west limits of this area to help guide the contractor on how far north and west they go into this area?
