Hi all,

First, thank you to both Darrell and Joaquin for digging through the Mitigation Well Data. For those not aware, the website housing the data is under construction and has been for a few weeks.

Darrell provided the data last night. I quickly drafted a report and conclusions of the analysis. It is meant to be a summary. I can produce a more detailed description of what was done and why at a later date.

Again, more information is in the report. Please let me know if you have questions. I am also happy to have a call to discuss more.

Randy
