Hi Steve,

I will make sure to do so with any future reports.

Randy,

You forgot to indicate that this is very much a draft report still under review by the team.
Please remember to indicate such when you send these out.

Steve

Subject: Time Series Analysis and Report for August

Hi all,

Please find attached the revised report documenting the relationship between the time series of information that is being collected at Glenn Ranch Well and Mitigation Well. In this report you will find that I also included Slaughter House Ranch Well and Middle Well (another well located at San Bernardino NWR). In short, all three wells show the same concerning negative trend and association with pumping at Glenn Ranch Well. Please let me know if you have any questions.
