USFWS ITP response 27Jan2021 sjq.doc;

Hi Megan - As FYI, here's the marked up version of the response letter I just sent along to Sharon for review. As we continue to pass drafts of things like this around, I just wanted to note that I would prefer to see track changes versions of things. It helps facilitate quicker review of revisions in response to comments. Thanks!

Hi Q,

Shauna made a good recommendation to remove the HCP handbook address from the body of the letter since it is already hyperlinked and included in the references. See attached revised letter.
