Subject: EO Rank vs Last Obs Date
Date: Friday, February 2, 2018 12:23:45 PM
Attachments: [HENA EO Rank Date vs Last Obs Date.xlsx](#)
Importance: High

Jame,

Attached is spreadsheet that show HENA EO records with a discrepancy between EO rank date and last observed date. There are two scenarios represented in the table:

- EO rank date older than last observe date
- Last observe date older than EO rank date

Our questions are:

- In the case of EO rank date older than last observe date - Can we assume an EO rank date consistent with last observed date even if it is listed as older? Example EO14 - The last observed date was 2009 and the EO rank date is 2001. Can we assume 2009 for an updated EO rank date?
- In the case of last observe date older than EO rank date - We can assume the EO rank date is accurate and maybe desk updated?

Thank you and have a great weekend!

Rebekah Reid
