Hello everyone,

Please review the attached in preparation for our call tomorrow at 3 pm (4 pm MT).

Attached is a draft evaluation of NPPD's proposed 35 acres of soil disturbance for the R-Project. This is a draft, internal document, so please do not share with anyone outside of this group until we have had the opportunity to discuss internally. Also know that the attachment is a review of NPPD's methods and includes alternative methods for consideration.

It is not at all perfect, and I probably needed more time editing for clarity. Hopefully, it is clear enough to generate good discussion tomorrow.

Jeff
