---

I only inserted "in Nebraska" on page 2 to let readers know where the Hoback and Conley work was done.

**Subject:** ABB Avoidance and Minimization

Mark,

Please review and edit the document once again. I revised the document based on your earlier comments. It was getting messy so I accepted many earlier edits to have a cleaner document for review. If you could, please have the review completed by Tuesday of next week as this will be the topic for discussion at Wednesday's ABB meeting.

Jeff
