Here you go. Some very good points raised, and working towards a better product. Thanks

Subject: ABB Avoidance/Minimization

Mark,

As we discussed on the call today, attached is my attempt to address your comments. I wanted to get your initial review of this before I reorder of certain sections to address your comment about flow. Please limit what edits you accept in track changes because other team members may want to know what changes have occurred. Note I said minimize because some track changes may need to be accepted for the document to be readable.

I will see if there is time to meet tomorrow afternoon to discuss edits.

Jeff
