I would defer to you on the review process with SDGFP, Amity, and/or others. If you send the document to SDGFP, then please use the attached draft in place of the one with track changes.

Looking at this now. Leaning towards having it a NE and SD document.
Should I run this past South Dakota Game Fish and Parks??

Subject: Fw: ABB Avoidance and Minimization Document

Hello Charlie,

Hope you had the opportunity to relax over the holidays. I wanted to follow up with you on the ABB minimization/avoidance document. Attached is the most recent draft, and I included track changes so you can see edits since the last draft you reviewed.

After talking with Mark, we wanted to check with you on whether this would be a Nebraska only document or a joint NEFO/SDFO document for the Northern Plains Analysis Area. If the

latter is possible, then let me know what is needed to finalize this.

Mark,

Attached is the most recent draft. I included relevant track changes and comments from NGPC for reference.
