I would suggest discussing any changes in our ABB recommendations for projects internally first and then set up a call with Wyatt if we have any questions he could help us with. I can talk about reintroductions if you want to include that in the agenda.

It would be helpful to have Wyatt Hoback on the call too.
Can we talk about reintroductions and where they are going?

But I think that's a good point that we should focus the conversation next week on those needs, and follow up on other issues at a later time if needed.

A large rectangular area of the email body is completely redacted with black ink. It covers approximately four lines of text.

If it does, then timing of the meeting works well.

Jeff

Angela,

That is an excellent idea, and one that I recommend happen within the next week or two. We are starting to wrestle with these issues for a variety of NDOT and COE projects, and I imagine it'll only ramp up. A few additional things to consider

(b) (5)

A large rectangular area of the email body is completely redacted with black ink. It covers approximately six lines of text. The letter 'a' is visible at the bottom right of the redacted area.

a

(b) (5)

Still, we need to have these conversations and chart a path forward, and the sooner the better. Thanks!

Subject: Re: Request

Hey Kevin,

Thanks for bringing that up - we discussed that point at the very end of the call after you had left, and I gave a very briefly mentioned the history of that in the OKESFO.

At some point soon, it may be helpful for us to have a meeting with Jeff and Charlie (and potentially others in the NE/SD FOs that may be working on ABB?) to discuss some of the previous fun things that we went through in OK, like the 1.2 acres, modeling, use of different avoidance/minimization measures, etc., and how it may or may not relate to things in NE/SD. So many of the issues we're currently wrestling are similar.

Jeff and Charlie - do you think that would be beneficial? If so, I could try to find a time on our calendars. And of course, Kevin, your participation would be very much appreciated if you have the time and bandwidth.

Thanks,
Angela
