Heard back from Joe. He is available the 20th but not the 6th. If you could please send out a calendar invite, so we do not lose them to other commitments.

Stay Vigilant!

Jim and Ben,

As mentioned on our call last week, attached document summarizes potential inconsistencies when reviewing the spreadsheets containing ABB survey data. I would like to stress that comments in the document represent potential inconsistencies, but they would need to be verified after NPPD's review as it could simply be user error from my end. I recognize a couple comments do not affect ABB totals, but I included all comments as it may be helpful for future QA/QCs. Let me know if you have any questions.

Also wanted to pass along that Matt Rabbe is available to meet either on January 6 or 20. Please forward the calendar invite(s) to Matt, so the date(s) are reserved for the whooping crane discussion.

Hope you have an opportunity to enjoy the holiday and eat some turkey. I look forward to meeting with everyone in December.

Jeff
