Sounds good! I cross-checked all the recovery ones, so we should be good there.

Thanks so much! I have forwarded these to Nicole.

Anyway, yes, I had the exact same issue with using the new spreadsheet. In theory, the new organization should make it EASIER to respond to requests like this (e.g. we should simply be able to sort by FO! And filter by fiscal year!), but that only works if the data in the table are up to date, complete, and accurate. Soooo... I'm thinking we need to do some quality control. I'm going to remind everyone in the branch at our next meeting (again) to review all of their own species, but I'm thinking you and I should try to do more of an overarching review. Could you take a look at the recovery stuff overall and make any corrections you can find? I'll do the same for listing/DDL. In particular, I know the "completion date" column needs some attention, but I know there were other scattered issues as well. Not super urgent, but I'm thinking over the next couple weeks.

Subject: Re: Regional workplan for FY21

Apologies for the delay. That was more challenging than I expected with the new spreadsheet. I had to crosswalk with some of the tables I've used before, and there were missing entries, and a few duplicates, possibly as a result of the copy-paste transfer into the new spreadsheet.

16 5-Year Status Reviews are due by August 30, 2021:

Total 5-year status review due in FY21 (August 30, 2021) by Field Office:

- Grand Junction = 3 species
- Grizz = 1
- Kansas = 1
- MO River = 1
- Utah = 10 species

RECOVERY PLANS: Numbers are species and may not reflect multi-species recovery plans

- Kansas needs to finalize the recovery plan for Topeka shiner by September 30, 2021.
- Grand Junction has 5 draft recovery plans due by September 30, 2021 (Parachute beardtongue, Mosquito range mustard, DeBeque Phacelia, Colorado hookless cactus, Pagosa skyrocket).
- Utah has 2 final recovery plans (San Rafeal and Winkler) and 4 draft recovery plans (Pariette, Uinta Basin, Kodachrome, and Jones (already drafted, waiting pub) due by September 30, 2021.
- Montana has a draft recovery plan due for the two Montana stoneflies by September 30, 2021.

 Hey Craig,

Could you help me with compiling this info for recovery actions? I'll cover listing/DDL actions. I know it's in the workload spreadsheet, but I'm having trouble interpreting what's on there - seems like maybe some things that are already complete are still showing up or something? And other things look like duplicates... blargh.
 (We may need to do some spreadsheet clean up to fix these issues, but that's another story for another day.) In the meantime, I'm remembering that you maybe already had some nice looking tables of what is due this year for recovery plans and 5-year reviews. Are they organized by FO, and if so, could you pass those along?

Thanks!!

Subject: Regional workplan for FY21

Good morning. I'm working on the performance plans for the PLs and would like to see what work plan items are expected for each office this year. I'm looking for all the items: SSAs, listing determinations, rules, findings, 5-yr reviews, RPs, etc.

Do we have that in a form that you could share it with me? Thanks.

N
