THanks Alex.

I finally got thru the 5-yr, only had a couple minor edits/comments. I do not need to review again. Sorry for my late review!

I should have time today to look at surname docs.

Thanks so much for all your work on this!

Subject: IM for grizzly 5 YSR Surname Package
Hi Team,

I hope you are enjoying wrapping up your review of the five-year status review draft. I will create a new version in the morning so I can clean up all of the edits and produce a final copy for surname. Please let me know if you want to give it one last look for fatal flaws after that cleaning (not required, but want to provide the opportunity); this review would likely occur late Friday (so a super super quick review, no more big changes!).

Here is a [link](#) to the draft information memo for the surname package. Please give it a read (if you'd like) and provide tracked changes edits/comments in the document before mid-day Friday so I can create a final version for the surname package.

Thanks for all of your help and support with this!
