**Subject:** Final Review

Hi all,

Here is a [link](#) to the clean version of the five-year status review. One comment remains in the document; it's a suggested deletion that may get at further addressing Tyler and Jodi's comments about the threatened rationale. Please let me know your thoughts on whether you'd agree with deleting.

As I mentioned earlier today, I hope this can be a very quick review for any fatal flaws or lingering errors, for those that wish to give it a read. We are unfortunately out of time for big edits or changes. **If you make any edits addressing these fatal flaws, please do so in tracked changes** so I can give a final check for consistency/typos before starting surname on Monday. **Please finish this review by noon on Monday so I can upload everything to DTS.**

While you are reviewing this document, I will be continuing to correct page numbers in the citations based on the final version of the SSA and add the lit cited (I didn't want to hold up your review so I could finish those administrative edits).

Let me know if you have any questions or concerns!
