Subject: Draft grizzly 5 year recovery outreach ready for input/edits
Good afternoon -

Apologies for not getting this out sooner, I've been absolutely slammed lately with announcements and support to other programs/issues. The outreach plan is ready for your feedback and edits, I have the news release drafted as well but want to get your input on the key messages here first. We are limited to four high-level messages and I've taken a stab at proposing those - please provide any input you have on crafting these further as it will guide the rest of our materials (also working on if-asked questions as well).

Looking primarily for feedback on key messages but please jump in anywhere else as you see fit as well. Feel free to make comments in track changes, send me a chat, or give me a call. I have two interviews for black-footed ferrets this afternoon but am focus on this otherwise.

Thanks!
