Sounds good to me. We might also signal that we're going to combine the Coordination and Litigation calls and have only one bi-weekly GB call. Starting in April? Or I guess there's no reason we couldn't start in March. Should we start on March 15 with the combined call?

Subject: coordination call

Hilary – I think it might be useful to have a quick coordination call this morning to provide quick updates on:

1. Surname process for 5-year review, posting of review and SSA, comms plan
2. Update on North Cascades
3. CBD notice of intent to appeal in recovery plan lawsuit
4. Approval of exception for grizzly bears to have separate current range and species list area

Thoughts?
