Hi Paul

Yes, I will get something in there now.

Thanks Jesse. Do you have time today to add a corresponding update blurb on the Monthly RD/DRD briefing document that I sent around to CPDS on March 25?

Cheers,

Subject: FYI: Grizzly Bear 5-year Review and SSA will post Wednesday March 31

I just heard from LR6 that they intend to post the grizzly bear 5-year review and SSA on their website this Wednesday (will forward the link when I get it). The 5-year review recommends no change in status (i.e., grizzly bears in the lower 48 remain Threatened under the ESA). The 5-year review does not attempt to examine the validity or status of possible Distinct Population Segments.

If you have any questions, please let me know.
