Subject: Re: FYI: Grizzly Bear 5-year Review and SSA will post Wednesday March 31
Date: Wednesday, March 31, 2021 10:06:26 AM

The Grizzly Bear 5-year review and SSA are now posted
online: <https://www.fws.gov/mountain-prairie/es/grizzlybear.php>

USFWS | Grizzly Bear

Grizzly bears in the lower-48 states were originally listed in 1975 as a threatened species. There is one umbrella recovery plan for all grizzly bears in the lower-48 that was developed in 1982 and revised in 1993, and some ecosystems have supplements that add or update habitat-based and/or demographic recovery criteria for that particular population of bears.

Subject: FYI: Grizzly Bear 5-year Review and SSA will post Wednesday March 31

I just heard from LR6 that they intend to post the grizzly bear 5-year review and SSA on their website this Wednesday (will forward the link when I get it). The 5-year review recommends no change in status (i.e., grizzly bears in the lower 48 remain Threatened under the ESA). The 5-year review does not attempt to examine the validity or status of possible Distinct Population Segments.

If you have any questions, please let me know.

Jesse
