Just letting you know that ECOS is up to date with the SSA, but the 5-year review isn't appearing yet. Kelly at HQ has submitted a ticket:

Subject: RE: grizzly bear 5-year review

Thank you for the clarification. I probably got confused by the discussion about the transition to Drupal.

I think changing the blurb to say 2021 and linking to the pdf on the mountain-prairie site would work.

Subject: Re: grizzly bear 5-year review

It doesn't pull from ECOS, that is a fairly advanced thing to code in HTML and it's a lot easier to just do it manually.

I can just change the blurb to say 2021 and link to this new 5-year review, if that works for everyone? I can use the PDF on our Mountain-Prairie site, or the ECOS link, either way.

Status Assessments

In 2021, the Service conducted a status review to evaluate whether or not the species' status had changed since the time it was listed. The five-year review also includes information on grizzly bear biology and life history.

Craig uploaded to ECOS. My question is for the regional grizzly bear website that Christina has been helping us with. When we re-vamped it some things are pulled automatically from ECOS but I can't recall.

Looping in Craig and Alex on ECOS questions, we do not manage that.

Subject: RE: grizzly bear 5-year review

Thanks Christina! Further down on the grizzly bear page there is a blurb under status assessments about the 2011 5-year review. Will this section update automatically from ECOS or does that need to be manually changed too? I can't remember which sections are linked to ECOS.

Subject: Re: grizzly bear 5-year review

Good morning,

I have added the following content to the Grizzly Bear page under Lates News:

March 31, 2021 The U.S. Fish and Wildlife Service is recommending no change

to the current listed status of the grizzly bear in the lower 48 states as threatened under the Endangered Species Act following the completion of a [five-year status review](#). This recommendation follows a thorough review of the best available science, informed by an independently peer-reviewed [species status assessment](#).

Hi Christina,
We finally have it! Please post the 5-yr review and the supporting SSA to our regional webpage. We'd like it to be prominent but I'll leave it up to your judgement as to the best place for it. Please correct lower 48 states to lower-48 States in the attached news release on our website.
Thank you!!!!
