Jodi and Matt just reached out about including a Q&A about Cabinet Yak Uplisting due to something that was asked by Gary Frazier in HQ - this is the first I've heard of that and am waiting to connect with Jodi further.

Thanks Joe. I haven't seen the final Comms Plan for 5-year review. Do you have and can you send please?

Thanks!

Just an update - it's cleared ES and EA, now waiting on the RDs office. I'm guessing they are held up on the 5-year review, if anyone speaks with Matt feel free to put a bug in his ear about moving the safety release as well

Jen - I have the safety release moving in surname, I did make a couple edits based on feedback from the states - I forget to pass that along to you and Hilary. I'm adding Hilary here for her FYI as well - let me know ASAP if you all have any issues with the changes, it's not too late to make tweaks (I send the cloud doc through surname so we can make tweaks as needed):

Our website contact while Christina is out is David Yeargin - just make sure either myself or Roya (or both) are CC'd on any requests so we can track and make sure they get completed.

I'm following the safety release closely to ensure no hang-ups on approvals, I'm optimistic we can get this out prior to the end of next week and have communicated the need for this to go out ASAP to folks.

Thanks!

Hi Joe –

I know it's been a busy week for you, unfortunately kind of seems like the new norm. Wanted to check in with you on two things.

1. Did our press release for bears emerging from their dens make it into surname?
2. Who is the contact in HQ that I should be in touch with about our website while Christina is gone?

Thanks!

Jennifer
