Dave,

Thank you for taking the time to take my call yesterday, as discussed while preparing survey reports, I noticed that during survey efforts I neglected to provide written notification that HMB Engineers (Todd McDaniel and Eric Smith, TE 129703-6) would be helping with mist net surveys in 2022. Additionally despite reporting gray bat captures to you verbally during the fall surveys, I failed to follow up with an email containing specifics, see below.

Gray Bat Captures				
Date	Lat	Long	Sex	Repro.
9/21/2022	36.273606	-85.645054	M	NR

9/27/2022	36.273606	-85.645054	M	TD

Let me know if you need any additional information or have any questions.

Thanks
