Hey Chris,

This is indeed for the wastewater treatment facility, and you recall correctly that the intent is to reuse the reclaimed water. The discharge allowance is a normal part of the treatment permit, even if we don't plan to discharge under normal operations.

I appreciate you reaching out on this as the news story certainly does not include the context that we've discussed, and please don't hesitate to let me know if you have additional questions.

Thanks,
Jordan

Subject: KRGV article on wastewater discharge

Good morning Jordan:

Hey, I saw this article and was wondering if this for the deluge water system or for the proposed treatment plant at the Starbase facility? I know during our meeting You or Matt had mentioned that releases into South Bay would be rare? What do you think?
