Subject: Proposed agenda for Sept 19th SpaceX-FWS meeting

Hi Matt:

I know you're probably very busy but I was just wondering if you were still planning on sending out a proposed agenda so I can share? As I mentioned yesterday, some of the topic items included discussion of land exchanges, access to SpaceX's 91 acre inholding, the FAA's BA and other ES activities, future SpaceX projects as well as anything Massey Road-related such as the utilities and maintenance permit. As always, please let me know if you need anything or have any concerns I can address. Looking forward to our meeting next week!

Regards.
