

## **“Decoys” Audio File Captions**

Speakers include Wildlife Biologist Joe Sands, Wildlife Biologist Roberta Swift, Wildlife Biologist Lily Calderón

Sands: Are those even real geese, or are they decoys?

Swift: (Laughing in the background)

Calderón: Oh my...

Sands: Those are decoys.

Swift: They're kind of the wrong color. They're really gray. Like if I was a goose, I would not be fooled either. Wait, is there a real goose in there? There's one real goose!

Sands: I don't think so.

Swift: Are you sure?

Sands: I'm pretty sure, bud.

Swift: Ohh. OK.

Calderón: I thought I saw something moving too.

Swift: He looked a little bit like a different color than the other one.

Sands: Well there might have been.
