

# BARN OWL

- Barn owls are found in every continent except Antarctica.
- They have white, heart-shaped faces and pale, golden-brown feathers.
- Barn owls are nocturnal and hunt for rodents and other small mammals at night .
- Their calls consist of high-pitched screams and hisses.

# Happy Halloween from the National Wildlife Refuge System

## Instructions:

Step 1: Print your pattern to a size that will fit your pumpkin.

Step 2: Tape your pattern to the pumpkin and use a poking tool to poke through the outlines of the pattern.

Step 3: Remove your pattern and with the help of an adult, carve the outlines you made with the poking tool.

# TURKEY VULTURE

- Turkey Vultures are large birds of prey found throughout much of the world.
- Turkey vultures are the only scavenger birds that can't kill their prey.
- They can travel up to 200 miles in a day.
- Their bald heads prevent carrion bits from getting stuck to their feathers.
- Turkey Vultures use a defense mechanism where they will vomit on a bird, animal, or human that gets too close.
