(1) General Notes:

(1a) EPA has replaced the Permit Compliance System (PCS) with the Integrated Compliance Information System (ICIS). All states/territories are now using ICIS. Data in ICIS are updated by States and /or Regions depending on data entry agreements. While the above data represent a reasonably accurate estimate of permit status, some inaccuracies may still exist due to data migration-related issues and the nature of the data entry process.

(1b) Only active permits and the most recent version of an individual permit are extracted from ICIS.

(2) Permits are considered current:

(2a) if their expiration dates are not older than 180 days from the time of the ICIS download (3/31/2013).

(2b) if the permit expiration field is blank but an application received date is present and the application date is not more than a year old.
