Hi all,

Please find the attached comment letter and our recommended edits to EPA's 316(b) cooling water intake structure rule. As mentioned in the letter, we are still coordinating with EPA on the rule through the section 7 consultation process. We ask that you notify us if our comments are submitted today or if OMB grants another extension.

Thanks

Good Afternoon Drew,

I have policy clearance to submit FWS comments to OMB. I will send over the narrative comments in memo- (rather than letter-) format, and the redline. We do not have to worry about submitting a signed letter during the EO review process. I will copy you on the transmittal email to Cortney.

Thanks,

Megan Apgar
