Attachment Withheld - b5 Deliberative
Process

Here is my document after incorporating Cathy's suggested edits. A couple of things:

1. I added several items to the timeline from NMFS BO at NMFS request. **Take a look at those.**
2. I've left some things in track changes for ease of review. Accept if you are ok with them.
3. There are comments in the margin indicating NMFS is to provide additional examples. Leave those if for their reference.
4. Feel free to remove all other comments as you go through.
5. save your file in the "final Draft" folder of the 316b/Biological opinion directory.

Thanks!!

Drew
