Attachment Withheld - b5 Deliberative Process

Thanks Jenny! I've attached what I was able to pull together. It looks like our timelines from January on are pretty similar. I put our timeline at the end of a briefing memo I previously prepared. The meeting and call attendees do not capture everyone, but at least gives an idea of who some of the folks were. This hasn't gone through review here either, so only for your use :)

Drew

Hi Drew,

Here is what we have so far...and you guys are covered. Keith (FWS) was cc'd on the emails including our "path forward" and consultation plan from November 2012. This is for your eyes only right now because it has not been reviewed in my agency, but it might help you with your consultation history too.

Thanks again for the heads up!

Jenny
