Attached is the draft integration and effects summary of the BO. It's only 3 pages, but it pretty much summarizes the analysis and explains how we got to our decision (hopefully). If you have time, I would appreciate your review and comment on this. If the arguments in this section are not clear or logical, then I know where I should spend more time.

Thanks!

I gave it a quick read and have one area where something seems odd but I can't really figure out what it is. We can discuss after you've heard from Patrice.
