Attachments: [Draft baseline, status and action area.docx](#) **Attachment Withheld - b5 Deliberative Process**

Hi Kris,

I've attached just those sections we were planning on sharing with EPA by the end of the day. I've made a couple of comments in the margin relating to Cathy's earlier edits. Other than that, these sections have not changed much from when you saw them last week. When your status and baseline are ready, feel free to incorporate and send to EPA. My understanding is your species specific information will be appendixes, and not part of the body of the attached document. Let me know if you need anything or have any questions.

Thanks!

Drew Crane
