Nikki,

EPA Office of Water staff are in receipt of language from the Services addressing the intersection of the Clean Water Act and the ESA. I understand that it will be the subject of discussions later today at 3:00. This follows language which EPA provided to the Services late last week.

We at EPA look forward to continuing discussions with the Services on the text and preamble of our rule under Sec. 316(b) of the CWA. Both the text of the rule and the preamble continue to change and evolve through this dynamic process.

I look forward to the successful completion of our discussions.

Ken
