Hi all,

Attached are clean and track changes versions of the 316(b) rule and preamble, where the RLSO is in comparison to the Nov 1st version. Most of the edits here are in response to comments from interagency review, although there are a few EPA generated edits. A quick list of the latter edits:

Hi all,

Attached are the preamble and rule, both a clean version of each and a redline comparison to the original submission. (b)(5) Deliberative Process

. The revised documents don't yet incorporate all of the changes made as a result of the interagency comments – please let me know if there is a comment that has not been addressed so I can flag that for EPA.

Please provide me with questions/comments on the revised documents by COB Wednesday, November 13th. Please let me know if you have any questions.

Cortney
