

# Lynx Potential Panelists

As of September 14, 2015

	Names of Potential Panelists	Recommended By	Votes for	Contacted	Responded	Expertise	Contact Information	October 13-16, 2015	
								Paperwork completed	
Lynx Ecology and Biology	Apps, Clayton			Y		Independent research ecologist whose work in western Canada over the past 24 years has focused on understanding and predicting relationships of wild			
	Aubry, Keith			Y		Emeritus Scientist (formerly Research Wildlife Biologist) with the U.S. Forest Service's Pacific Northwest Research Station. Dr. Aubry was a member of several national scientific teams, including the Forest Carnivore Conservation Assessment Team, the			
	Bowman, Jeff			Y		Research Scientist with the Wildlife Research & Monitoring Section, Ontario Ministry of Natural Resources and Forestry			
	Catton, Sue or Tim			Y		expert on lynx biology, ecology and management on the SNF			
	Erb, Dr. John	Minnesota				Provides technical oversight of forest carnivore mgmt programs			
	Harrison, Dan			Y		Univ of Maine advisor. Published work on lynx, hare and hbtt modeling			
	Hodges, Karen			Y		Ast Prof at Department of Biology at the University of British Columbia. Research on how range position and habitat configuration affect species interactions and endangerment of at-risk species			
	Ivan, Jake			Y		Wildlife Researcher with CPW's Mammals Research Section,			
	Koehler, Gary			Y		retired Research Biologist, has conducted research on lynx and hares in Washington for more than 30 years.			
	Kolbe, Jay			Y		Jay has worked for over a decade on lynx research and management in western Montana and has authored and co-authored numerous peer-reviewed lynx pubs			
	McKelvey, Kevin			Y		Research Ecologist, Member of the lynx science team and the science lead for National Lynx Survey. Author of numerous pubs.			
	Moen, Roy			Y		over 10 years, studied lynx to understand their distribution, abundance, persistence, movements and habitat use in and near the Superior NF in northeastern Minn			
	Mowat, Garth			Y		Manages the Research Section for the Resource Stewardship Division in British Columbia, where his current research varies from geomorphology to ecosystem classification and wildlife ecology		NOT AVAILABLE	
	Murphy, Keith			Y		Wld Bio on the B-T NF. He has extensive experience monitoring, managing, and surveying Canada lynx and their habitat, and in documenting aspects of other carnivore populations.			
	Murray, Dennis			Y		Canada Research Chair in Integrative Wildlife Conservation, Bioinformatics, and Ecological Modeling
