Subject: Appendix F

Attached is the old "Appendix H" out of the Conservation Strategy (CS). It is now called Appendix F. The numbers in this table are from long ago and far away but as we look to update the CS we need to update this table. As you look at this table, you may groan with the thought of updating these numbers and I sympathize. Can you please take a look at this and make an estimate of the costs involved by category for your agency? Some of you may choose to live with the numbers or may choose to only update some of the numbers. If you get to something you don't do anymore or do differently, please note that and we will update the action categories and the amounts as necessary. Don't worry about precision. This is an estate of costs not a detailed budget.
Thanks and let me know if you have any questions.
Chris
