Hello Alexandra

My earlier email to Jennifer et al. would provide you with some precision. The attached file shows a snip of the comments as they are processed after closing date. It entails comments Seth mailed out via FedEx and any other late arrival.

Yes indeed the late arrivals would not be part of the 'Bulk Extract" I sent you. These latest get on regulations.gov as I process them.

The docket has not received any more comment, but we do not control that aspect because some folks could always send their comments. We are required to process them no matter when they come in with mention "Late' as you could see in the attached file part of my earlier email.

The major issue is the timeliness of we obtaining these comments to avoid any delay and potential confusion.

That is all for now

Michel

Seth,
We are not responding to this but Nicole said you need to make sure they get put in the record.
