Could we also say that the bear will remain as a fully listed species outside of the area delineated by the rule including the potential linkage habitat to the Northern Continental Divide grizzly bear population.

> >
> > Connectivity is more difficult to address. Although we say that Montana will encourage connectivity there are no hard requirements. Although the draft hunting regulations for the state of Montana does not allow hunting in the connectivity area between the GYE and the NCDE. The forest service also has food storage orders in affect in the connectivity area to

minimize bear-human conflicts.

Hope that helps!
Jennifer

Looks pretty good, but I don't know if we've fully addressed the concerns about connectivity and sustainable mortality. Is there anything we can add in that regard?

Jennifer,

Do you have time to put together a rough response to this. I agree with Sarah that the congressman is asking for things we already expect to do such as having completed Forest Plan amendments and State management plans, but could we provide step through outline of our approach with these items prior to a delisting decision.

Sarah and Justin - Jennifer and I are leaving Friday to attend a conference in Anchorage.

Also I am busy much of tomorrow with a telemetry flight but will get back in the office late in the day. I will be around part of the day Friday to try and review a draft if Jennifer can give us a start.

Hi Wayne,

Could you work on drafting a response to this letter from Rep. Grijalva? Justin, could you be the RO lead to help Wayne with this? Seems like what he is requesting is fairly consistent with what we plan to do, as I understand it? So we should be able to confirm as much in our response, but let me know if we need to discuss further.

We'll probably need something drafted by early next week I think, in order to get it through surname and to the RD's office by the due date of June 16th. Also attached is an example Congressional letter put together by our RO "correspondence team" to help with formatting.

Thanks,

Sarah Backsen (Fierce)

Sarah (to determine the RO contact and Wayne as the field lead. Would it also be possible to send Wayne the congressional response template?

thanks,
Marj

Please coordinate response and surname through EA. Due date is 06/16/16 to facilitate routing through the RD's office.

Due: Signed in RDs office by 6-16-16
