> Remember we talked about the petition point? My point being that anyone can petition us and using the "petition" language is unnecessary and puts the Service in the situation that they MUST respond within a statutory timeline. A recommendation allows the Service to look at the information provided by the IGBST and move forward accordingly.
>
> So I was asked to revise the language. I have taken a stab at it. Its from pages 99, 104.

Please take a look and see what you think, and add any edits you think will clarify.

Also wondered what the timeline was to get the new themes to the Steering committee. I cant remember if we were going to get them something before or after our meeting in Denver.

Thanks for your help. JB

Team,

Attached are the notes from our June 10 meeting as well as the updated list of Steering Committee themes. This list includes all of the original issues we tagged as SC issues as well as those that were tasked to subgroups and re-referred back to the SC. This will be the list we use to guide our meetings over the next 6 weeks.

Our next meeting will be June 24th at 8:30 a.m.

Brian
