Subject:	Reminder info on July 12 meeting
Date:	Wednesday, July 06, 2016 11:47:42 AM

Just to refresh our memories, below is the original email regarding our meeting next week, starts at 8:30 and will probably take the better part of the day. We may discuss a few other topics, if time allows.

Thanks,

Frank

Following up on my inquiry from late May, I've received responses about availability from several of you. It looks like **Tuesday, July 12** may be our best bet for the extra Study Team meeting to address these topics associated with monitoring of high-calorie foods and bear body condition (see Jennifer's email below).

Again, I realize not everyone may be able to participate because of field/management activities but it would be important to get good representation from the team.

The meeting will be at our science center in **Bozeman** and we will plan to start at **8:30 AM**.

Thanks,

Frank
