Dan,

When you are looking into this issue there is another question that remains . . .
If it turns out that the old Forest Plan Amendment will "suffice" - how then do we update the content to match the Conservation Strategy revisions?
Thanks for looking into this.

Lisa

This is another issue that did not garner much attention last winter. However, with persistence we were ultimately successful in generating a discussion among the Deputy Regional Foresters and Office of General Council for the 3 FS Regions.

It was determined that the old Forest Plan Amendment will "suffice". I put a note out to all the right people to see if any formal statement followed these discussions. That is, I asked if this issue has been resolved and it what way?

I'll let you know what I find out.

Thanks.

Subject: forest plan update

Dan,

Do we know what the plan is for updating the Forest Service amendment and what the process is? Is there any chance that we can have it done by August 8th? We may reopen the comment period at the end of August because the state plans and regulations are expected to be finalized by then.

Thanks!

Jennifer
