Subject: RE: Updated Version

I concur with the changes adopted by Joe based on Kerry's input. I offer two very minor suggestions attached to Joe's draft.

Kerry, here is the document after reviewing your comments and adding some and leaving some of it the way it was. If you feel strongly that all of your comments need to be incorporated let me know and I can schedule a call. I would encourage others to take a look at what Kerry provided and see if what I have done will work for you. If we have any other issues I will schedule a call. If you all can live with what I have then I will send it to Brian to move through his group. Thanks, Joe

Joe,

Here are the NPS comments on Chapter 4, in Track Changes.

Kerry

<jgalexander@fs.fed.us<mailto:jgalexander@fs.fed.us>> wrote:
Ok, here is the updated version as of this morning. I provided you with some edits yesterday, Loren provided some suggested changes (which we included), and Jeff provided a few changes this morning that we included. I also left the comments Jeff provided in the document so you can see why we made those changes. Loren brought up a question about the JDRP regarding who carries out the management there. The document currently shows that the Park Service does this but we will want to ask Brian if this is the case or if the Wyoming Game and Fish handle this management. I am asking that you provide me with any further comments by this Friday and we will try to wrap this up and get it in to the steering committee for final review. Thanks for all of your time and consideration on this document.

Joe
