Jenn,

See attached spreadsheet. You can use either figure and edit as you think best meets your need.

Sincerely,

Mark

> As we briefly discussed after the Study Team meeting on Tuesday I would like to replace Figure 3 (FCOY) in the Strategy. It currently shows unduplicated females with cubs inside and outside the DMA. I would like to instead show unduplicated females with cubs from only within the DMA and then the Chao2 estimate of females with cubs, possibly as a line over the bar graph? I realize that prior to 2012 the estimate did not exclude FCOY outside the DMA and we will need to note that in the Figure description. Thanks!
