2015 was not in figure 3. Are you sure it needs to be added? Are you adding 2015 results to everything? 2015 numbers on on the second sheet. You can add them in the first sheet if you need them.

> As we briefly discussed after the Study Team meeting on Tuesday I would like to replace Figure 3 (FCOY) in the Strategy. It currently shows unduplicated females with cubs inside and outside the DMA. I would like to instead show unduplicated females with cubs from only within the DMA and then the Chao2 estimate of females with cubs, possibly as a line over the bar graph? I realize that prior to 2012 the estimate did not exclude FCOY outside the DMA and we will need to note that in the Figure description. Thanks!
