- GB. Coord Call - Alex, Jen, Seth

JB

FR notice - Draft - adea. of regs-state announcement - peer review avail [good 8/25

- gary + matt meeting - Big issues (7/14 call)

- ~~Calibration issue~~ 155,000 Previous indiv. comments 290,000 12,000 unique ≈ 1200 substantive

[30 days] prop. rule light of PR 3/5

Signed by RO in 8/9

When will MOA be final?

5 issues

1 2 situational awareness

a - Recency criteria - not mtg criteria (partially 2 yrs 48 Fw/Cubs - not est. / smoothed Yes...

target 9% mort. limit < 6/12] pop not below

b >10%

* wait to see numbers later on → and potential consequences

2 Calibration - Matt took lead on discussion

Peer Revs, plaintiffs, NPS raised

- issue: Matt - We agreed to say final w/ stats on this

Gary - we agreed to not call it out. Hope we can address + resolve it @ steering committee level.

see wording from Jen 2/21

Wayne - what if there were less CO Boards there? Would it we need - strong response = hope to work w/ stats

(2)

see Jen's em
Brian's em
Alex's docs.

re 500/674 pop #s

[3] Confusion of scales, 674-FWS; State-range comments pushed to removing triggers

* Gary - huge issue - troubling - issue we thought we had resolved. Idea that we would move from 674-500 would flag...

2nd ltr - States - comm. wording added to be deleted; any reference to 500 # for genetic purp; RC1 -

- trying to remove wording related to 500

propose - more closely aligning triggers to RC - ~~po~~ ~~to~~ triggers issue

Sit. Aware [4] lag/offset - modeling. Potential to allow ↑ mortality to we should. Plan to ask states to address help us

IGBST - model.

if we can't address - may be problem for RP

tomorrow let folks know

[5] Post Delisting Monitg. "remove" in persp. + indef. fm test.

OPT. 1. evolve, show a change

OPT. 2 FWP - wait us out of their business. Previous CS had perp in it, Draft had perp. w/ct - DEQ think should have.

ask MT T-Sd. asks MT law (6) Still unsure whether it is regulatory or not how MT reg. framework. How they're approval of tri-state MOA is ~~reg~~ reg?

Id=FWS procedure Why-regs

- Why/How reg - NEED - tie to reg. auth. - MT
